## Investments (Hardback)

By Zvi Bodie, Alex Kane, Alan J. Marcus

McGraw-Hill Education - Europe, United States, 2013.

Hardback. Book Condition: New. 10th Revised edition. 257 x 206

mm. Language: English . Brand New Book. The integrated

solutions for Bodie, Kane, and Marcus Investments set the

standard for graduate/MBA investments textbooks. The

unifying theme is that security markets are nearly efficient,

meaning that most securities are priced appropriately given

their risk and return attributes. The content places greater

emphasis on asset allocation and offers a much broader and

deeper treatment of futures, options, and other derivative

security markets than most investment texts. Available as a

separate purchase, McGraw-Hill's adaptive learning

component, LearnSmart, provides assignable modules that

help students master chapter core concepts and come to class

more prepared. In addition, resources within Connect help

students solve financial problems and apply what they've

learned. Bodie Investments blend of practical and theoretical

coverage combines with a complete digital solution to help

your students achieve higher outcomes in the course. Connect

is the only integrated learning system that empowers students

by continuously adapting to deliver precisely what they need,

when they need it, and how they need it, so that your class time

is more engaging and effective.
