Buddhist Biology: Ancient Eastern Wisdom Meets Modern Western Science

By Professor of Psychology David P Barash

Audible Studios on Brilliance, United States, 2015. CD-Audio. Book Condition: New. Unabridged. 170 x 135 mm. Language: English . Brand New. Many high-profile public intellectuals such as the well-known New Atheists Richard Dawkins, Daniel Dennett, and the late Christopher Hitchens have argued that religion and science are highly antagonistic, two views of the world that are utterly incompatible. David Barish, a renowned biologist with thirty years of experience, largely agrees with them with one very big exception. And that exception is Buddhism. In this fascinating audiobook, David Barash highlights an intriguing patch of common ground between scientific and religious thought, illuminating the many parallels between biology and Buddhism, allowing listeners to see both in a new way. Indeed, he shows that there are numerous places where the Buddhist and biological perspectives coincide. For instance, the cornerstone ecological concept the interconnectedness and interdependence of all things is remarkably similar to the fundamental insight of Buddhism. Indeed, a major Buddhist text, the Avatamsaka Sutra which consists of ten insights into the interpenetration between beings and their environment could well have been written by a trained ecologist. Barash underscores other similarities, including a shared distrust of simple cause-and-effect analysis, a recognition of life as...
