Upgrade Volume 1

By Emma Willett

CreateSpace Independent Publishing Platform. Paperback. Book Condition: New. This item is printed on demand. Paperback. 198 pages. Dimensions: 8.0in. x 5.0in. x 0.5in. In a future where technology can fix any flaw or imperfection, individuality is hard to come by. Every aspect of life has been optimised for maximum efficiency education, nutrition, even the human brain. TsCorp, a powerful science corporation, have started performing upgrades alterations of the brain to help people live up to their full potential. Disorders that were previously treated with medication and therapy are now curable with one procedure, but it doesn't stop there. People are now offered surgery to improve their language skills, understand maths better or even remove annoying personality traits. But, as one group are realising, just because you can alter something, it doesn't mean you should. Progress has a price and it's not always worth it. This item ships from La Vergne, TN. Paperback.

Reviews

It is a single of the most popular ebook. It really is simplified but excitement in the fifty percent from the pdf. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- Joy Langosh

It is one of the most popular publication. We have read through and that I am sure that I will likely to study again once more later on. I am just delighted to tell you that this is actually the finest publication we have read through in my individual existence and might be the best pdf for actually.
