# Development of a Geographical Information System - Based Support Tool

By Mundia, Lisho

Book Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | for Integrated Water Resources Management in Zambezi Catchment Area within Zambezi Region, Namibia | The project is the initiative of the Namibia Geographical Information Technologies cc, (NGIT) a company registered with the Ministry of Industrialisation, Trade and SME Development in Namibia to provide and promote innovative GIS, surveying & related spatial technologies to its clients and business associates. NGIT is committed to: rendering innovative GIS solutions and promoting new spatial technologies; ensuring to match and customise the data to meet the specific requirements of our clients and business associates; helping promote educational institutions; assisting professionals and businesses to use and apply geo-information technology to better manage their area of responsibility; and assisting clients in successfully deploying, recognising, applying and administering GIS, surveying and database management. The project is funded by Servir, a regional visualisation and monitoring system that ingrates Earth Observations such as satellite imagery and forecast models, with situ data and other information for timely decision-making. SERVIR is a joint development initiative of the USAID and the NASA, implemented in partnership with RCMRD in Kenya. | Format: Paperback | Language/Sprache: english | 72 pp.

## Reviews

*The publication is straightforward in study better to fully grasp. It is definitely simplistic but excitement inside the 50 percent of your publication. It is extremely difficult to leave it before concluding, once you begin to read the book.*

-- **Mazie Johns IV**

*The ideal pdf i at any time read. I am quite late in start reading this one, but better then never. You will like the way the author create this book.*
