Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Arbor and Bird Day Bulletin Arbor Day offers an opportunity for a community program of interest to the parents and citizens as well as to the children, for the welfare of this state is dependent to a large extent upon the welfare of its forest and orchard trees. In the timbered parts of the state, the question of forest fire prevention should be taken up at some length, with possibly a talk by a ranger or fire warden. The best methods of clearing logged-off lands and reforestation are topics sufficiently allied to be appropriate. Other subjects will suggest themselves to a teacher who is awake to local conditions. In the fruit growing localities, a lecture by a horticultural expert, or by a plant pathologist on the insect and fungus foes of the fruit trees, would prove attractive. In any case, the pupils should be impressed with the economic value of the states arboreal resources, the annual export of the tree fruit products being valued at approximately \$9,000,000 and the annual cut of timber at \$43,000,000. They should be made to feel that, while timber grows for our use, its destruction by fire is nothing short of criminal. A plant disease affecting the fruit trees and vegetables should be regarded as dangerous and abhorrent as a plague affecting our human citizens. If its nature and treatment are unknown, it should be reported to the district horticulturist, to the State College at Pullman, the University of Washington, or to one of the state experiment stations. A movement has recently been started to plant fruit and nut trees by the roadside. This might find favor in your community....
