THE RELATION OF SIGHT AND HEARING, TO EARLY SCHOOL LIFE (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Relation of Sight and Hearing, to Early School Life The purpose of this bulletin is to present in nontechnical form some of the facts concerning visual and aural disturbances that are related to the early school life. That such relation does exist has long been known but the means of combating and controlling the evil results of the educational process constitute one of the modern problems of preventive medicine. It is hoped that those who care to know just why a considerable percentage of those who enter school in apparent good health soon manifest impairment of the chief organs of special sense will find a convincing explanation herein. Furthermore it is hoped that teachers and others having the desire to work in this problem of special hygiene may find some helpful suggestions as to the methodical prosecution of inspections of the eyes and ears of school children. No attempt has been made to discuss any of the problems of school hygiene other than those having to do with the functions of sight and hearing. The very elementary manner in which the refractive errors are described will, it is hoped, be excused by those familiar with physiological optics. The writer has thought best to proceed upon the assumption that the reader possesses no knowledge of optics, and that those desiring deep insight into the problems of physiological optics will naturally seek that elsewhere. To progress normally in school life and at the same time to retain health, become an active and intimate problem with every child entering school. The incidence of acquired disease of some of the organs of special sense and the process of...
