RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 130 pages. Original publisher: Gaithersburg, MD : U. S. Dept. of Commerce, National Institute of Standards and Technology, OCLC Number: (OCoLC)32458467 Subject: Metallurgy -- United States -- Periodicals. Excerpt: . . . Project Title: HIGH TEMPERATURE SOLDERS FOR MICROELECTRONICS Investigator s: F. W. Gayle, L. C. Smith, M. E. Williams, U. R. Kattner, and W. J. Boettinger Objectives: The objective of this program is to identify and develop high temperature fatigue-resistant solders for microelectronics applications in harsh environments, especially in the automotive, telecommunications, and avionics industries. Technical Description: In this project, scientists from the Metallurgy Division are working with a broad-based industrial consortium organized through the National Center for Manufacturing Sciences (NCMS) to develop critical tests and evaluate performance of candidate microelectronics solder alloys for applications at high temperatures. The need for these new solder alloys is being driven by the automotive, telecommunications, and avionics industries, all of which have new demands for the performance of interconnects beyond the current capabilities of lead tin eutectic alloys. There is a particular focus on thermal fatigue of the alloys since this is regarded as the primary failure mechanism for solders in high temperature applications. In addition to NIST, members of the consortium include Delco Electronics, Ford Motor Company, AlliedSignal, Indium Corporation of America, Heraeus Cermallo, Johnson Manufacturing, Ames Laboratory, and Rensselaer Polytechnic Institute. NISTs role is to provide fundamental knowledge of materials processing and physical metallurgy of solder joint formation. NIST contributions to this industry-led program have included phase diagram calculations, materials fabrication for testing and measurements, metallographic analysis and metallurgical evaluation of alloy performance, and test development for manufacturing performance and mechani. . . This item ships from La Vergne,TN. Paperback.
